# **COURSE OUTLINE**

### Syllabus Statement

Policies and their impacts on the delivery of clinical work will be examined.

#### **Course Description**

Clinical practice does not occur in a vacuum. Social workers in clinical practice handle issues that represent fallout in various policy issues. This course takes an advanced approach to examine social welfare policy in Canada, the current roles of social welfare policies, and the roles they could have in clinical practice. This advanced policy course addresses an integrative practice-policy approach to social work. The connection between clinical practice issues and the related policy contexts and implications will be discussed. Strategies to creating changes in policy areas related to 1) mental health, 2) human services, including a) child welfare, b) family violence; 3) employment, social security, living wage, guaranteed annual income 4) homelessness 5) families and children, and 6) immigration, would also be included as the focal points of this course. The course will emphasize creating changes at the community level, as well as working toward changes at municipal and provincial levels. As an advanced level policy course, students are expected to be familiar with basic social welfare policy content related to one's own area of practice and/or interest. References related to introduction to social welfare policies can be referred to in the preparation of this course. Websites of government departments are often good sources of information for existing services and programs. This course has no pre-requisites or co-requisites.

#### Learning Outcomes

The course is intended for MSW students in the Clinical Social Work Practice Specialization. It identifies major structures influencing Canadian and international social policy in broad, macro, aggregate terms, and different ways in which policy and planning may be conceived and subsequently carried out. It also concentrates on understanding competing ideological/value based components of social policy and approaches to create changes. From clinical practice to policy implications, this course will facilitate students' advanced understanding of how practice is affected in the context of policy development and changes.

Course Learning Outcomes (CLOs)

- 1) A deeper understanding of how public policy influences and shapes people's lives and relationships;
- A critical perspective on the economic, political and environmental forces that constitute people's lives;

- An appreciation and integration of practices and insights from selected clinical approaches that consciously take context and policy into account in their assessment and practice with people and communities;
- 4) An introduction to key skills involved with influencing policy and larger contexts as a core dimension of SW practice.

Specialization Learning Outcomes (SLOs)

- 1. Professional identity Students will take on the identity of a social worker and identify how social work is distinct from other helping professions.
- Diversity/cultural Students will critically examine and reflect on the various ways in which their languaging in their practices and in their interactions with other professionals and peers may be interpreted.
- 3. Social justice Students will recognize justice issues in society and in daily living and learn to speak to these issues in listenable ways directed toward reflection and change.

Program Learning Outcomes (PLOs)

This course provides an opportunity to:

- 1) Apply critical thinking to identify and address structural sources of injustice and inequalities in the context of a Canadian society
- 2) Demonstrate comprehension of social policies in relation to the wellbeing of individuals, families, groups and communities in Canadian and global contexts.
- 3) Contribute to the development and implementation of new and more equitable social policies.

#### **Relationship to Other Courses**

It is important to share your viewpoints and respond in a thoughtful way to the viewpoints of others during in class discussion. In class discussions could be conducted verbally or via other discussion strategies. Assessment of participation is based upon the instructor's evaluation of students' participation in class using the following general criteria:

The University of Calgary Graduate Grading System will be used.

Grade	Grade Point	Description	Percentage
A+	4.0	Outstanding	95-100
A	4.0	Excellent – superior performance, showing comprehensive understanding of subject matter	95-100
A-	3.7	Very Good Performance	90-94
B+	3.3	Good Performance	85-89
В	3.0	Satisfactory performance. <b>Note</b> : The grade point value (3.0) associated with this grade is the minimum acceptable <b>average</b> that a graduate student must maintain throughout the programme as computed at the end of each year of their program.	80-84

D+	1.30		55-59
D	1.00		50-54

#### Late Assignments, Extensions and Assignment Modifications

To be fair to all class members, any extension in the class written assignment must be discussed with the instructor prior to the due date. Leaving voice messages, written notes or e-mails informing the instructor that you will not be able to make the deadline do not constitute a formal agreement that an extension for handing in the assignment has been granted. Assignments that are not received directly by the instructor via email or drop box in D2L, or received and date stamped by the main office by 4:00 p.m. on the day the assignment is due will be considered late unless other arrangements are made in consultation with the instructor. Assignments handed in late without prior approval will be deducted a half letter grade for each block-day late (e.g., A- becomes a B+).

Extensions will only be granted under exceptional circumstances, such as the death of an immediate family member or illness requiring treatment by a physician. Poor planning or lack of time management is not grounds for deadline extensions.

Special circumstances requiring modifications to assignment due date must be discussed and negotiated with the instructor well in advance of the due date. This holds for students formally requesting academic accommodation through Student Accessibility Services, as well as for students with other considerations. If modifications are not negotiated in advance, assignment expectations will be commensurate with those of other students'.

#### Use of Laptops in the Classroom

The use of laptops in the class room is supported for the purposes of taking notes and class presentations. Students will be asked to shut down or remove their laptops if they are found chatting on IM tools, websurfing, using Facebook or other social networking sites.

#### **Course Evaluation**

Student feedback will be sought at the end of the course through the standard University and Faculty of Social Work course evaluation forms.

Students are welcome to discuss the process and content of the course at any time with the instructor.
