ADDITIONAL CLASSROOM CONDUCT AND RELATED INFORMATION

Each student has an agency-based **Field Instructor** who provides orientation to the field setting, assigns and directs practice activities, provides supervision and opportunities for integrating theory with social work practice, and evaluates the student's progress and learning. Students may receive social work supervision onsite in the agency, or through external social work supervision.

Faculty liaisons consult as needed with students and field instructor(s), and usually meet with the student and field instructor(s) at least twice during the term via a distance platform called Zoom. Faculty liaisons are also the instructors for the integrative seminar (SOWK 413), which is taken concurrently with practicum.

Schedule and Student Attendance in Practicum

Students are expected to be in the field placement for practicum schedule negotiated with the field instructor/agency, approved by the faculty liaison, and documented in the IPT system. The student's time in practicum is spent according to the particular requirements of the setting and learning needs of the student, but must include direct and indirect social work practice opportunities as well as educational supervision.

Students are not expected to attend practicum when they are ill, but must make-up the practicum hours missed due to illness. In the event of illness, please contact the field instructor as soon as possible to inform them you will not be at your practicum due to illness. For more extended absences from practicum (more than two days), please contact your faculty liaison as well. Students are responsible for

arranging with the agency a convenient time to fulfill the remainder of the practicum hours required for the course and/or to complete learning activities.

Educational Supervision

Educational supervision is an integral part of the field practicum as it provides opportunities (1 hour per 15 hours of practicum) for reflection, review, instruction, and feedback. Students are expected to prepare for and participate fully in supervision, according to the requirements of the field instructor. This may be structured as individual and/or group sessions and directed by your field instructor and/or others depending on the field placement. Supervision can happen in-person, by telephone or other distance means. Educational supervision includes: a. Instruction: integration of knowledge, values, and skills with practice situations b. Supervision: case management and case/project supervision c. Feedback: on progress and professional development d. Other: instructional seminars/workshops as are available. *If external supervision is required, we will meet for group supervision on Fridays from 11:00am-12:00pm MST.

Media recording for assessment of student learning

The instructor may use media recordings as part of the assessment of students. This may include but is not limited to classroom discussions, presentations, clinical practice, or skills testing that occur during the course. These recordings will be used for student assessment purposes only and will not be shared or used for any other purpose.

ASSESSMENT COMPONENTS AND EVALUATION INFORMATION

Evaluation of students in practicum is considered an ongoing process intended to highlight students' strengths and learning needs. Formal assessment of students' needs and progress occurs at the beginning, middle, and end of the placement. Evaluation processes and policies for SOWK 412 are detailed in the Field Education Policy Manual. Briefly, these are:

- **Learning Agreement** – During the first two to three weeks in practicum, the student, in consultation with the field instructor, develops a plan for development toward achieving the five practice objectives of SOWK 412. The plan, approved by the faculty liaison, is tailored to the practicum setting as well as the student's particular learning needs and interests, and includes activities the student will undertake to learn and demonstrate competence in the objectives. The Learning agreement serves to guide the focus of the practicum and helps the field instructor and student clarify respective responsibilities and expectations. Learning agreements are intended to be working documents. That is, with the agreement between the student and field instructor (and approval of the faculty liaison), activities can be modified, added, or removed as the practicum progresses and the student's learning interests and needs become clearer.
- **Preliminary Impressions** – Field instructors and students are asked to evaluate preliminary impressions of the practicum by the end of the third week. Recording preliminary impressions is intended to support the student's development of reflective self-evaluation, and to facilitate discussion of the student's strengths and potential areas of concern.
- **Mid-Term Evaluation** – At about the halfway point in the practicum, a written mid- practicum report is prepared by the student and field instructor and submitted to the faculty liaison. A determination regarding whether the student is meeting or failing to meet practicum requirements at mid-course is made.

- **Final Evaluation** – At the end of the practicum (near or upon completion of required hours), a written final practicum report is prepared by the student and the field instructor and submitted to the faculty liaison. A determination regarding whether or not the student has met or failed to meet practicum requirements is made. The completed evaluation forms are due at the end of term.

GUIDELINES FOR SUBMITTING ASSIGNMENTS

Please complete all forms electronically on the ITP system. Please discuss with your faculty liaison if completion of these forms will be after the due date.

GRADING

Students receive a CR (Completed Requirements) or F (Fail) as a grade for this course. Concerns regarding a student's performance in practicum at any point in the semester may result in the student being identified as at-risk for failing the practicum, and such concerns should be discussed with the faculty liaison immediately. Policies and procedures related to at-risk situations are detailed in the Field Education Manual. Students **who do not** receive a CR (completed requirements) grade in the field practicum course may be required to withdraw from the program. A student who is permitted to repeat a field practicum course normally will be required to repeat both the field practicum course and the corresponding Integrative Seminar course.

COURSE EVALUATION

Student feedback will be sought at the end of the course through the standard University and Faculty of Social Work course evaluation forms. Students are welcome to discuss the process and content of the course at any time with the instructor.
