SYLLABUS STATEMENT

Advanced integration of concepts, perspectives and skills with experiences and developing conceptual frameworks of practice.

COURSE DESCRIPTION

This course provides students with an opportunity to integrate theory and practice – that is, to link knowledge; skills and values derived from BSW social work courses and experiences with the ongoing practice experiences in the field placement setting. The course provides students with opportunities to foster professional development and make connections between thinking, feeling and doing in relation to being a social worker.

Students will be expected to:

- 1) Present and discuss practice experiences from their field placement settings using knowledge about various aspects of social work theory and practice;
- 2) Critically reflect upon their own and others' practice experience;
- 3) Engage in a collaborative learning process; and
- 4) Demonstrate competence in their ability to identify, apply, critique and evaluate theories and conceptual frameworks while in their practice setting.

Students participate in collaborative discussions regarding professional issues, practice situations, and ethical dilemmas. While critically reflecting on experiences in practicum, students are encouraged to integrate knowledge and skills from the generalist practice framework into their own developing practice framework.

This course is taken concurrently with Practicum II (SOWK 412). For more information, access the Field Education Policy Manual on the D2L site
