OUR COMMITMENT TO EQUITY, RACIAL JUSTICE, DIVERSITY, INCLUSION AND DECOLONIZATION

The Faculty of Social Work (FSW), University of Calgary (UCalgary), is committed to promoting and actualizing equity, racial justice, diversity, inclusion and decolonization. We affirm that diversity and uniqueness are enriching and valuable, and that they can strengthen our teaching, learning, research, scholarship, and community connections. We aim to foster an inclusive, thriving and equitable environment for our students, non-academic and academic staff, and community members. We take the stand that equity does not mean sameness in treatment of people, but rather requires measures and accommodations for diverse life experiences and circumstances to ensure that no one of a particular social group is disadvantaged, underrepresented or overlooked in all aspects of our work. We intend to address systemic inequities and compounded disadvantages due to intersectionality of social locations, particularly for those who are members of racialized communities, Indigenous peoples, Black peoples, persons with disabilities, migrant groups (including refugees and immigrants), 2SLGBTQ+ communities, linguistic minorities as well as those who have experienced socioeconomic, caregiving, religious, political, and/or cultural barriers to their education and employment. We also recognize, honour, and integrate into our work diverse perspectives, ways of knowing and doing, experiences, and strengths. An

ASSESSMENT COMPONENTS

Assignment 1: Case Study: Applying A Trauma-Informed Framework Value: 25% of final mark Due Date: May 31, 2022, by 5 pm Aligned Course Learning Outcome: 2, 3, 4

Background Information: You know what Adverse Childhood Experiences (ACEs) are and the impact they can have on adults physically, mentally, emotionally and behaviourally. A trauma-informed practice means that you assume it's possible that the person you are working with has experienced ACEs or trauma in adulthood. It's important that when you are learning about a client that you always listen for possible ACEs/trauma and that you understand the link between trauma and current experiences or behaviours.

Directions: Applying a trauma-informed perspective, review the case study provided and report the following information:

- 1. What are 10 Adverse Childhood Experiences?
- 2. What are three adverse childhood experiences Chantelle had growing up?
- 3. What are four adult physical/mental health conditions that someone is more likely to develop when they have four or more adverse experiences?
- 4. What is one mental health condition that Chantelle has that people who have experienced for or more ACEs has a higher chance of developing?
- 5. What are four adult behaviours that people who have experienced four or more ACEs has a higher chance of developing?
- 6. What are two behaviours Chantelle has that people who have experienced for or more ACEs has a higher chance of developing?
- 7. Identify three sources of support for Chantelle?
- 8. What are three strengths that Chantelle has?
