OUR COMMITMENT TO EQUITY, RACIAL JUSTICE, DIVERSITY, INCLUSION AND DECOLONIZATION

The Faculty of Social Work (FSW), University of Calgary (UCalgary), is committed to promoting and actualizing equity, racial justice, diversity, inclusion and decolonization. We affirm that diversity and uniqueness are enriching and valuable, and that they can strengthen our teaching, learning, research, scholarship, and community connections. We aim to foster an inclusive, thriving and equitable environment for our students, non-academic and academic staff, and community members. We take the stand that equity does not mean sameness in treatment of people, but rather requires measures and accommodations for diverse life experiences and circumstances to ensure that no one of a particular social group is disadvantaged, underrepresented or overlooked in all aspects of our work. We intend to address systemic inequities and compounded disadvantages due to intersectionality of social locations, particularly for those who are members of racialized communities, Indigenous peoples, Black peoples, persons with disabilities, migrant groups (including refugees and immigrants), 2SLGBTQ+ communities, linguistic minorities as well as those who have experienced socioeconomic, caregiving, religious, political, and/or cultural barriers to their education and employment. We also recognize, honour, and integrate into our work diverse perspectives, ways of knowing and doing, experiences, and strengths. An

SYLLABUS STATEMENT

Examination of various approaches, strategies, and perspectives for taking action as a social worker in international and community development settings, and growing a professional toolkit of resources and techniques to engage in this work.

COURSE DESCRIPTION

The course focuses on social work and sustainable development, and the integration of social, economic and environmental concerns into policies and programs at all levels. The impacts of climate change, disasters, poverty, unemployment, disparities in wealth, violence, and gender inequities, among others, contribute to a new imperative to address these interrelated concerns, and their effects, on diverse populations. Sustainable development is about meeting the needs of today without compromising the needs of future generations. The concept of sustainability and the implementation of sustainable strategies at local, provincial, national, and international levels are critically important, especially with the severe effects of climate change and disasters on ecosystems and human well-being. Social workers are challenged in their practice to consider complex, interrelated, and systemic problems that require new approaches and innovations. This course will provide students with an in-depth understanding of the complexity inherent in shaping effective responses to the social, economic, and environmental crises. The course examines the relationship between sustainable development, community and environmental sustainability, climate change, disasters, and environmental migration, and explores the implications for social work practice in changing contexts. Students will engage in interactive class discussions, presentations and critical reading, group work, brainstorming sessions, and online discussions. This is a blended course with online learning and in-person residency. This course will take place online via Desire2Learn (D2L) and Zoom. To best succeed in the course, students are expected to participate in the asynchronous learning tasks using the D2L learning environment (e.g., discussion boards, watching videos, etc.) and synchronous Zoom sessions. When unable to participate live due to the time difference or unforeseen circumstances, inform the instructor in advance and propose an alternative participation activity (e.g., watch the recordings, submit a brief reflection, and actively contribute to the follow-up online discussion). There will be 4 synchronous Zoom sessions throughout the term and each will be recorded.

COURSE LEARNING OUTCOMES

Upon completion of this course, students will be able to:

1. Conceptualize sustainable development and understand the importance of integrating social, economic, and environmental dimensions in social work practice and policy.
2. Discuss the relationship between social work and the natural and physical environment.

3. Conceptualize 'green social work' and socio-ecological social work approaches.
4. Examine community and environmental sustainability issues in relation to vulnerability, resilience, equity, human rights, and environmental justice in social work practice.
5. Conceptualize social work practice in disaster management and examine how different systems (e.g., economic, political, social) contribute to hazards becoming disasters in diverse settings.
6. Consider the impact of climate change locally, nationally, and internationally and the pathways to foster sustainable development.
7. Understand environmental migration and the role of social workers in promoting sustainable development at the local and global levels.

LEARNING TECHNOLOGIES AND REQUIREMENTS

A D2L site is set up for this course, which contains required readings and other relevant class resources and materials. A laptop, desktop or mobile device with Internet access, microphone and speaker is required for D2L and Zoom access.

RELATIONSHIP TO OTHER COURSES

This course is scheduled following SOWK 620.01 and SOWK 622.01 and is a core course in the International Community Development Specialization. The content of this course focuses on sustainable development. The course is a pre-requisite for SOWK 626.01: Social Work & International Development Projects.

ADDITIONAL CLASSROOM CONDUCT AND RELATED INFORMATION

GUIDELINES FOR ZOOM SESSIONS IN ONLINE CLASSES

Students are expected to participate actively in all Zoom sessions. If you are unable to attend a Zoom session, please contact your instructor to arrange an alternative activity for the missed session (e.g., to review a recorded session) for your best learning experiences. Please be prepared, as best as you are able, to join class in a quiet space that will allow you to be fully present and engaged in Zoom sessions. Unless advised (or agreed) otherwise by their instructors, video cameras should be turned on during class and students are expected to manage their microphones as required. All students are expected to behave in a professional manner during all Zoom sessions.

MEDIA RECORDING FOR ASSESSMENT OF STUDENT LEARNING

The instructor may use Zoom media recordings as part of the assessment of students. This may include but is not limited to classroom discussions, presentations, clinical practice, or skills testing that occur during the course. These recordings will be used for student assessment purposes only and will not be shared or used for any other purpose.

ZOOM RECORDINGS OF ONLINE CLASSES

The instructor may record online Zoom class sessions for the purposes of supporting student learning in this class – such as making the recording available for review of the session or for students who miss a session. Students will be advised before the instructor initiates a recording of a Zoom session. These recordings will be used to support student learning only and will not be shared or used for any other purpose.

ASSESSMENT COMPONENTS

1. Outdoor Activity (25%) Due May 13 (midnight)

- Spend 30 minutes outdoors in a natural environment or green space in your local neighborhood.

The purpose of this activity is to spend time outdoors and be mindful and fully present and aware of your surroundings in the natural environment (outdoors). Assess your natural environment and identify areas of strength and challenges that may affect people's and the planet's wellbeing. Students must submit a brief assessment (1-2 pages) in which you discuss your experience. Write a post about your experience in D2L by May 16th. A grading rubric will be posted in D2L. (Course Learning Outcomes 1,2,3,7,8)

2. Mind Map (25%) Due May 23 (midnight) in the assignment Dropbox in D2L

- Develop a 'mind-map' as a visual tool.

The purpose of this assignment is to creatively explore the complex, interrelated, and systemic challenges in sustainable development that require new approaches and innovations. 'Mind-maps' are used to present new ideas and information, to illustrate the links and connections between

levels and units, and to encourage others to grasp complex information. The use of mind-maps is an innovative way of facilitating learning to understand key information, and provides a strategy for retaining information, integrating critical thinking and problem solving skills. 'Mind-maps' promote active learning, improve memory and learning skills, and allow for the sharing of ideas. The 'mind map' should be created in a single page (or slide) on a topic of interest related to sustainable development. Students will have the opportunity to share their 'mind map' in D2L with their peers. More details about this assignment, expectations and grading criteria will be discussed in class. A grading rubric will be posted in D2L. (Course Learning Outcomes 1,2,3,4,5,6,7,8)

3. Digital Story: Green Social Work, Environmental Justice, Sustainable Development (50%)

- Outline (10%) Due May 30 (midnight) in the assignment Dropbox in D2L
- Digital Story (40%) Due June 7 (midnight) in the assignment Dropbox in D2L

The purpose of this assignment is to create a digital story that explores green social work, environmental justice, and sustainable development issues. The first step is to develop an outline for a digital story on a topic of relevance to the course, provide a minimum of two references, and propose a creative format for the digital story. Building upon the outline, develop a digital story that includes images, photos, drawings, symbols, spoken words and/or music to explore your selected topic. Digital stories should demonstrate artistic creativity, evidence of critical thinking, deep reflection and a storytelling process. The digital story should be approximately three to five minutes in length. A variety of formats may be used (Zoom recording, PowerPoint, iMovie, Podcast, digital narrative, etc.) Students will have the opportunity to share their digital story in D2L to their peers. More details about this assignment, expectations and grading criteria will be discussed in class. A grading rubric will be posted in D2L. (Course Learning Outcomes 1,2,3,4,6,7,8)

ADDITIONAL ASSESSMENT AND EVALUATION INFORMATION

ATTENDANCE AND PARTICIPATION EXPECTATIONS

Students are expected to attend class regularly and to be fully present and engaged in class activities and discussions. If a student must miss a class, please advise the instructor in advance.

GUIDELINES FOR SUBMITTING ASSIGNMENTS

Please submit all assignments electronically through their respective Dropbox in D2L. Assignments may be submitted in Word or PDF format. Assignments should have a file name as follows: "Full name and assignment number" (e.g., Jane Smith Assignment 2). Assignments are due by 11:59pm on their due date. Please note that it is the student's responsibility to keep a copy of each submitted assignment and to ensure that the proper version is submitted.

LATE ASSIGNMENTS

Late assignments will be accepted only in exceptional circumstances and at the discretion of the instructor and assignments submitted after the deadline may be penalized with a grade reduction.

EXPECTATIONS FOR WRITING

All assignments will be assessed partly on writing skills. Writing skills include not only surface correctness (grammar, punctuation, sentence structure, etc.) but also general clarity and organization.

Sources used in research papers must be properly documented and referenced in APA 7th edition format. If you need writing support, please connect with the Student Success Centre, at: <https://www.ucalgary.ca/student-services/student-success/writing-support>

ACADEMIC MISCONDUCT

It is expected that all work submitted in assignments is the student’s own work, written expressly by the student for this particular course. Students are reminded that academic misconduct, including plagiarism, has serious consequences, as set out in the University Calendar: <http://www.ucalgary.ca/pubs/calendar/current/k.html>

GRADING

A student’s final grade for the course is the sum of the separate assignments. It is not necessary to pass each assignment separately in order to pass the course.

The University of Calgary **Graduate Grading System** and Faculty of Social Work Percentage Conversion will be used.

Grade	Grade Point	Description	Percentage Range
A+	4.0	Outstanding	95-100
A	4.0	Excellent – superior performance, showing comprehensive understanding of subject matter	95-100
A-	3.7	Very Good Performance	90-94
B+	3.3	Good Performance	85-89
B	3.0	Satisfactory performance. Note: The grade point value (3.0) associated with this grade is the minimum acceptable average that a graduate student must maintain throughout the programme as computed at the end of each year of their program.	80-84
B-	2.7	Minimum pass for students in Graduate Studies. Note: Students who accumulate two grades of “B-” or lower can be required by the Faculty to withdraw from the programme regardless of the grade point average.	75-79
C+	2.3	All grades below “B-” are indicative of failure at the graduate level and cannot be counted towards Faculty of Graduate Studies course requirements.	70-74
C	2.00		65-69
C-	1.70		60-64
D+	1.30		55-59

D	1.00		50-54
F	0.00		Below 50

COURSE EVALUATION

Student feedback will be sought at the end of the course through the standard University and Faculty of Social Work course evaluation forms. Students are welcome to discuss the process and content of the course at any time with the instructor.

UNIVERSITY OF CALGARY POLICIES AND SUPPORTS

Professional Conduct

As members of the University community, students and staff are expected to demonstrate conduct that is consistent with the University of Calgary's [Code of Conduct](#).

Students and staff are also expected to demonstrate professional behaviour in class that promotes and maintains a positive and productive learning environment. Consistent with the aims of the Social Work Program and the University of Calgary, all students and staff are expected to respect, appreciate, and encourage expression of diverse world views and perspectives; to offer their fellow community members unconditional respect and constructive feedback; and to contribute to building learning communities that promote individual and collective professional and personal growth. While critical thought and debate is valued in response to concepts and opinions shared in class, feedback must always be focused on the ideas or opinions shared and not on the person who has stated them.

Students and staff are expected to model behaviour in class that is consistent with our professional values and ethics, as outlined in the [Canadian Association for Social Workers, Code of Ethics](#) (2005) and the [Alberta College of Social Work Standards of Practice](#) (2019).

Academic Accommodation

It is the student's responsibility to request academic accommodations according to the University policies and procedures. Students seeking an accommodation based on disability or medical concerns should contact [Student Accessibility Services](#) (SAS). SAS will process the request and issue

letters of accommodation to instructors. Students who require an accommodation in relation to their coursework based on a protected ground other than disability should communicate this need in writing to their instructor. Please refer to the full policy on [Student Accommodations](#).

Research Ethics

“If a student is interested in undertaking an assignment that will involve collecting information from members of the public, they should speak with the course instructor and consult the [CFREB Ethics Website](#) before beginning the assignment.

Academic Misconduct

For information on academic misconduct and its consequences, please refer to the [Integrity and Conduct](#) section in the University of Calgary Calendar.

Instructor Intellectual Property

Course materials created by professor(s) (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the professor(s). These materials may NOT be reproduced, redistributed or copied without the explicit consent of the professor. The posting of course materials to third party websites such as note-sharing sites without permission is prohibited. Sharing of extracts of these course materials with other students enrolled in the course at the same time may be allowed under fair dealing.

Copyright Legislation

All students who use materials protected by copyright are expected to comply with the University of Calgary policy on [Acceptable Use of Material Protected by Copyright](#) and requirements of the [Copyright Act](#) to ensure they are aware of the consequences of unauthorised sharing of course materials (including instructor notes, electronic versions of textbooks etc.). Students who use material protected by copyright in violation of this policy may be disciplined under the [Non-Academic Misconduct Policy](#).

Freedom of Information and Protection of Privacy

Student information will be collected in accordance with typical (or usual) classroom practice. Students’ assignments will be accessible only by the authorized course faculty. Private information related to the individual student is treated with the utmost regard by the faculty at the University of Calgary.

Sexual and Gender-Based Violence Policy

The University recognizes that all members of the University Community should be able to learn, work, teach and live in an environment where they are free from harassment, discrimination, and violence. The University of Calgary’s [Sexual and Gender-based Violence Policy](#) guides us in how we respond to incidents of sexual violence, including supports available to those who have experienced or witnessed sexual violence, or those who are alleged to have committed sexual violence. It

provides clear response procedures and timelines, defines complex concepts, and addresses incidents that occur off-campus in certain circumstances.
