**OUR COMMITMENT TO EQUITY, RACIAL JUSTICE, DIVERSITY, INCLUSION AND DECOLONIZATION**

The Faculty of Social Work (FSW), University of Calgary (U Calgary), is committed to promoting and actualizing equity, racial justice, diversity, inclusion and decolonization. We affirm that diversity and uniqueness are enriching and valuable, and that they can strengthen our teaching, learning, research, scholarship, and community connections. We aim to foster an inclusive, thriving and equitable environment for our students, non-academic and academic staff, and community members. We take the stand that [equity](#) does not mean sameness in treatment of people, but rather requires measures and accommodations for diverse life experiences and circumstances to ensure that no one of a particular social group is disadvantaged, underrepresented or overlooked in all aspects of our work. We intend to address systemic inequities and compounded disadvantages due to intersectionality of social locations, particularly for those who are members of racialized communities, Indigenous peoples, Black peoples,

persons with disabilities, migrant groups (including refugees and immigrants), 2SLGBTQ+ communities, linguistic minorities as well as those who have experienced socioeconomic, caregiving, religious, political, and/or cultural barriers to their education and employment. We also recognize, honour, and integrate into our work diverse perspectives, ways of knowing and doing, experiences, and strengths. An anti-oppressive lens, particularly intersectional, anti-colonial, anti-racist and decolonizing frameworks, will inform our work.

## SYLLABUS STATEMENT

Integration of theory, research applications/evaluations and professional practice in the student's area of specialization; and preparation of a capstone exit requirement.

## COURSE DESCRIPTION

This course provides students with an opportunity to integrate theory and practice – that is, to link knowledge, skills, and values derived from MSW coursework and past experiences with social work practice experiences in the practicum setting (SOWK 660). Students will participate in collaborative discussions regarding professional issues, practicum situations, ethical dilemmas, and the application of theory to practice. Students are encouraged to provide constructive feedback and consultation to peers, and to participate collectively and collaboratively in furthering their learning and promoting professional development.

Emphasis will be placed on integration of research, theory, and social work practice with personal and professional development. At the master's level, students are leaders with the social work profession. Discussions will also focus on contributing to the profession and the body of knowledge.

Students will be expected to 1) present and discuss practice experiences from their practicum settings; 2) critically reflect upon their own and others' practice experiences; 3) engage in a collaborative learning process; 4) demonstrate competence in their ability to identify, apply, critique, and evaluate theories and conceptual frameworks to practice situations; and 5) apply learnings from advanced social work practice and specializations courses to their practice and practicum experiences.

The Integrative Seminar will also introduce or re-introduce key social work themes from previous practice core and specialization courses with a focus on application to social work practice and to students' practicum experiences. These themes relate to the five practice objectives of Advanced Practice (SOWK 660) and include 1) diversity and Indigenous contexts; 2) oppression and social justice; 3) professional identity and self-care; 4) theoretically informed and evidenced based practice; 5) program and practice evaluation; 6) facilitating and advocating for change; and 7) articulating a professional model of practice. Finally, throughout the eight months of seminar, students will be building towards their capstone project and final exit requirement of the MSW program. The capstone assignment is described below.

This course will take place online via Desire2 Learn and Zoom. Students will engage in interactive class discussions, presentations and critical reading, group work, brainstorming sessions, and online discussions. In order to ensure instructional hours are in the course, learning will occur in both synchronous (real time/Zoom) and asynchronous this includes students completing (discussion boards, watching videos, etc.) on their own time.

Co-requisite: This course is taken concurrently with SOWK 660 A & B, Advanced Practicum.

### **COURSE LEARNING OUTCOMES**

Upon completion of this course, students will be able to:

1. Identify, apply, and reflect on their developing social work knowledge, values, and skills, particularly in the context of Advanced Practicum and in the areas of: diversity and Indigenous contexts; oppression and social justice; professional identity and self-care; theoretically informed and evidence-based practice; program and practice evaluation; facilitating and advocating for change; and articulating a professional model of practice.
2. Critically assess social work practicum and practice experiences through reflection, discussion, peer consultation and constructive feedback.
3. Reflect on their practicum learning goals, and their growth/development towards reaching these goals, with reference to specific shifts in their thinking and practice.
4. Participate actively in class discussions and work collaboratively and collectively with other students in furthering learning and professional development.
5. Demonstrate the ability to create respectful, open, and safe learning environments which ensure that each student has a voice, and everyone is treated with respect and dignity.

Upon completion of the Capstone, students will be able to:

1. Articulate their professional identity and social work practice foundations in relation to their values, the Code of Ethics, social justice, anti-oppressive practice (AOP), and MSW specialization.
2. Make connections between their personal and professional identities and values and their social work identity and practice.
3. Present an approach to practice that is grounded in theory and evidence and relevant to their MSW specialization.
4. Demonstrate the application of their model of practice and applied research concepts through a case study from practicum of their model of practice, including a proposed evaluation of an intervention.
5. Articulate critical learning moments and insights reached during the MSW program, including key learnings from coursework in advanced social work practice, specialization courses and practicum/seminar.
6. Reflect broadly on their learning journey over the course of their MSW degree program and its impact on their social work identity/practice.
7. Demonstrate a commitment to their continued growth and development by identifying future goals for continued learning and professional development.

**ADDITIONAL CLASSROOM CONDUCT AND RELATED INFORMATION**

**GUIDELINES FOR ZOOM SESSIONS IN ONLINE CLASSES**

Students are expected to participate actively in all Zoom sessions. If you are unable to attend a Zoom session, please contact your instructor to arrange an alternative activity for the missed session (e.g., to review a recorded session) for your best learning experiences. Please be prepared, as best as you are able, to join class in a quiet space that will allow you to be fully present and engaged in Zoom sessions. **Unless advised (or agreed) otherwise by their instructors, video cameras should be turned on during class and students are expected to manage their microphones as required.** All students are expected to behave in a professional manner during all Zoom sessions.

**MEDIA RECORDING FOR ASSESSMENT OF STUDENT LEARNING**

The instructor may use Zoom media recordings as part of the assessment of students. This may include but is not limited to classroom discussions, presentations, clinical practice, or skills testing that occur during the course. These recordings will be used for student assessment purposes only and will not be shared or used for any other purpose.

**ZOOM RECORDINGS OF ONLINE CLASSES**

The instructor may record online Zoom class sessions for the purposes of supporting student learning in this class – such as making the recording available for review of the session or for students who miss a session. Students will be advised before the instructor initiates a recording of a Zoom session. These recordings will be used to support student learning only and will not be shared or used for any other purpose.

**ASSESSMENT COMPONENTS**

**Assignment 1: Theories for Practice (20%)  
Due Date: October 9, 2023, at 11:59pm**

Aligned Course Learning Outcome: 1, 2, 3.

Students will identify and present a minimum of 2 theoretical approaches to social work practice, relevant to their practice and/or MSW specialization. Students will 1) articulate the relevancy of these theories to social work practice; 2) introduce each relevant theory and demonstrate a critical

understanding of these (e.g., main tenets of each theory, key theorists and works); 3) present evidence for the use of these theoretical approaches for social work practice in general and/or in practice contexts relevant to their specialization, including limitations and critiques of the theories.

Questions for reflection and planning include:

Which theories or approaches ground my social work practice? How do these relate to each other? How do these relate to my specialization or area of interest? How do they promote socially just outcomes? Who are the main theorists and/or what are the seminal works in this area and what are their contributions?

What are the limitations and critiques of this approach, within the literature and in practice? What research supports these theoretical models/approaches in my specialization or area of interest?

How do these theories relate to my own values and personal ethics? How is my theoretical framework informed by my own history, location, and experience?

Students will craft a paper of 1500-2000 words (6-8 pages double spaced, not including references); attention to the current and relevant scholarly literature is required.

**Assignment 2: Integration of Theory to Practice – Case Study (30% = Presentation - 25% +Peer Responses – 5%)**

**Due Date: November 26, 2023, at 11:59 (Presentation: 2a)**

**Due Date: December 3, 2023, at 11:59 (Peer Response: 2b)**

Aligned Course Learning Outcomes: 1, 2, 3.

The purpose: In this assignment, students will have an opportunity to demonstrate their ability to integrate theory, research, and practice through the application of a theoretically informed approach to practice.

The concept: Students will present an actual “case study” (could also be conceptualized as a ‘problem’ or practice issue) involved a situation encountered in their practice, either in Advanced Practicum (SOWK 660) or in other recent practice. The case will relate to the area of focus in which the student has developed substantive or specialized knowledge during the MSW program and will allow the student to demonstrate and rationalize the application of a particular theoretically informed approach (drawn from Assignment 2).

The “case” may be defined differently depending on the specialization and orientation, and might be an individual, couple, family, group, community, organization or other. The “case” may be an actual case from practice (if consent is obtained) or represent a composite of cases (if consent is not obtained).

The presentation will also provide an overview of how the student worked with the case presented, and/or how the student may have worked differently in hindsight. The student will clearly demonstrate ways in which their practice strategies and/or interventions were grounded in the theoretical frameworks germane to their substantive areas of practice. Students should identify noted gaps between theory and practice. The student’s knowledge of the problem area and application of an intervention approach should typically be critiqued from a social justice/anti-oppressive perspective

including reflection on the impact of self in social work practice. As in real life the case does not need to represent the “perfect” application of theory to practice.

The tasks: The following “headings” are suggested as guidelines:

1. Introduction: Introduce the context within which the problem situation or case exists, why you selected this particular case for the assignment, and its relevance for social work.
2. Case Description: Provide a brief description of the case, including relevant background context and the key area of concern, questions, or issue for analysis.
3. Theoretically Grounded Analysis: Critically describe and analyze the theoretical knowledge base related to the substantive practice area(s) associated with the “case”. How do the theoretical perspectives identified in Assignment 2 help advance your understanding of the issues of concern? How do they inform your interventions?
4. Intervention: Based on your case assessment, understanding and analysis, describe and critique your actual (or hypothetical) practice interventions or approach to this case. What ‘worked’ and what didn’t? What gaps between theory and practice did you observe? What alternative interventions may be applicable?
5. Discussion: Conclude the presentation by discussing your personal and professional learnings, including whether any held biases were challenged. Consider also how you will apply your learning to your future clinical practice.

Using power point or other similar applications, students will develop a case presentation and record a **15 min presentation on zoom** (with a list of references provided in a separate document). This presentation will be uploaded to D2L in the discussions section. Each student will view and respond to 4 other students’ presentations by **December 3, 2023 at 11:59pm**.

### **Assignment 3: Program Evaluation Plan (15%)**

**Due Date: February 11, 2024 @ 11:59pm**

**Aligned Course Learning Outcomes 1, 2.**

*In groups of 3 or 4, students will select an evidence-based evaluation tool from examples provided in class or found independently. In their groups, students will consider their case studies in the context of this tool through group discussion, and then submit a group paper which reflections on the following questions:*

- *The usefulness of the tool for evaluation*
- *Any new insights group members had about their case studies as a result of this reflection*
- *Consideration for how you integrate evaluation into your future practice.*

Students will submit a plan to evaluate the intervention described in Assignment 3. How did/could you or your organization evaluate the effectiveness of the intervention in your case study? Briefly describe the proposed evaluation purpose/question(s), research approach (quantitative/qualitative/mixed methods), methodology, rationale, and methods. Include reflection on any social justice issues that may arise. This assignment can be completed in the form of a short paper (1250-1750 words or 5-7 pages) to be submitted via Dropbox in D2L.

### **Assignment 4: Capstone Oral Presentations (20%)**

**Due Dates: Presentations begin in class February 29, 2024, and end April 4,2024  
Aligned Course Learning Outcomes 1, 2, 3, 4, 5.**

This final presentation (done in a conference-style format) aims to be a synthesis product that highlights and transmits some key learning or aspects of the student’s MSW journey. Students may utilize/integrate technology, such as a website, Prezi, PowerPoint, digital story telling, or not, depending on their own preference and comfort.
